A Great Big Thank You!

Thank you for your purchase! Here's how to get started:

Photoshop:
1. Extract the ZIP file.
2. In Photoshop, open the Actions panel (Window > Actions).
3. Choose the ATN file with a filename that matches your version of Photoshop. Drag and drop the ATN file into the Actions panel.
4. Open the Brushes panel (Window > Brushes). Drag and drop the ABR file to the Brushes panel.
5. Play the "Step 1" action. Paint over the main subject. Make sure that your brush opacity is set to 100%. You can check this by selecting the Brush tool and looking in the options bar located below the menus.
6. Play the "Step 2" action. Pick the one that corresponds with your image size. (i.e. use the High-Res version if you're editing a 4000px or larger image).

Can't find the download?
1. Open the Creative Cloud desktop application, click the three vertical dots icon in the upper-right, and then select Preferences.
2. Click Creative Cloud and select Files. Ensure that File Sync is enabled.

FAQ:
Q: Why am I getting a command "If" error message?
A: Please remove the actions from your panel and load the Photoshop CS6 ATN file (Not the Photoshop CC version).

Q: I am getting error messages. How do I fix this?
A: Please go to Image > Mode and ensure that your image is in 8-bit RGB mode.
